

General Conditions

Work Program

1. The licence holder must carry out the operations, and any other activities, described in the Work Program and comply with any commitments in relation to the conduct of operations specified in the Work Program, as for the time being in force, in respect of this licence.

Authorised Prospecting Operations

2. The licence holder must not carry out any prospecting operations, other than those of the following kind:
 - (a) aerial surveys
 - (b) geological and surveying field work that does not involve clearing (as defined below)
 - (c) sampling by hand methods
 - (d) ground-based geophysical surveys that do not involve clearing
 - (e) drilling and activities associated with drilling and the establishment of a drill site that do not involve clearing or excavation (as defined below), other than the minimum necessary to establish a drill site
 - (f) environmental field work that does not involve clearing.

For the purposes of (e) above, the following are not permitted:

- (a) side hill excavation for access or drill pads, as would be necessary on steep slopes
- (b) drilling in a watercourse or any stream diversion
- (c) cutting down or pushing over trees
- (d) clearing or excavation for the purpose of obtaining access to drill sites.

For the purposes of this condition 2, the following definitions apply:

'Clearing' in the case of:

- grass, scrub or bush, means the removal of vegetation by disturbing root systems and exposing underlying soil, but does not include:
 - the flattening or compaction of vegetation by vehicles, where the vegetation remains living
 - the slashing or mowing of vegetation to facilitate access tracks, provided root systems remain in place and vegetation remains living
 - the clearing of noxious or introduced plant species.
- trees, means cutting down, ringbarking or pushing over trees.

'Excavation' means the use of machinery to dig below the **topsoil horizon**, but does not include minor levelling of a site to allow a drill rig to operate on a level surface for safety reasons (e.g. to provide a safe working area or for fire prevention) or the construction of a small sump for operational purposes.

'Topsoil horizon' means the top level or layer of soil which is generally less than 30 cm thick.
