

This is a summary guide for TMS users. It explains in a more visual manner the changes to TMS made in the interim Phase 2.1 release, which was rolled out on 31 July 2020.

These system tweaks were a result of feedback and observations received from industry during user testing and the usage after the Phase 2 release.

	Current	New functionality	Impact to users
1	<p>Adding Technical Manager alternative option in the Party Details screen.</p>  <p>Currently there is an issue identifying a Technical Manager who may not be registered in TMS.</p>	 <p>New tick box introduced now allows the applicant to proceed and declare that the Technical Manager details and consent to undertake the role is either attached with this application or will be supplied within 10 business days of lodgment. MEA may need to check for attachments to</p>	
2	<p>Fixing attachment overwrite feature, so multiple docs in the same document type can be uploaded.</p> <p>Currently, if documents are attached using the same document type only the latest document is visible in TMS and all earlier files were overwritten.</p>	 <p>Second or more docs in the same category will no longer be overwritten.</p>	

	Current	New functionality	Impact to users
3	Additional information on login screen instructing use of preferred Google Chrome browser and optimal resolution and screen settings.		<p>Additional prompts now appear for a user when they are signing in.</p> <p>Reminder – Do make sure your resolution is set to 1920x1080 and screen scale is set to 100%</p>
4	Removal of target date from lodged tab of dashboard and case tracking feature if there is an open STC.		<p>Target date disappears when there is an open STC.</p>
5	Correcting field label to be “Minister’s” in Application area.		<p>Very minor update - capitalisation error in the word “Minister” now corrected.</p>

	Current	New functionality	Impact to users
6	<p>Removing "Provide reasons" which displays in PDF for MLAA (Review and Declare).</p> 	<p>Application details</p> 	<p>"Provide reasons" field is now gone when PDF is generated by the external user.</p>
7	<p>Fixing Grant date rendered as 01/01/1970 for generic cases created by Agent and Grant date blank for generic cases created manually in Case tracking.</p> <p>The Grant date was defaulting to 1/1/1970.</p>	 	<p>Grant date is no longer showing as the incorrect/default of 1/1/1970</p>

	Current	New functionality	Impact to users
8	Increase limitations of 1,000 characters for text box in Required Justification Statement (RJS).		
	<p>Current fields limit explanations to 1,000 characters</p> <p>Further requirements for renewal of more than half of the</p> <p>Note: If the holder is applying to renew more than half of the</p> <p>Has the full area of the authority been explored effectively? *</p> <p><input checked="" type="radio"/> Yes <input type="radio"/> No</p> <p>Elaborate on your response referencing extenuating factor where the</p> <p>Remaining: 1000 characters</p> <p>Does the proposed work program satisfactorily cover the full area to t</p> <p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>	<p>Character limitations has been increased to 4,000 characters</p> <p>Renewal justification details</p> <p>Completion of this screen is mandatory for all renewals. Previously, required information for the RJS online. As an interim measure you be reviewed at a future date.</p> <p>Are you completing the renewal justification details online? *</p> <p><input checked="" type="radio"/> Yes <input type="radio"/> No</p> <p>Exploration activities proposed in the work program for the current term *</p> <p>Remaining: 4000 characters</p>	<p>Improved customer expectations and functionality, in response to testing feedback which advised that this is insufficient, especially for complex renewal cases with stratification.</p>
9	Remove case sensitivity in Search for Case tracking.		
	<p>Search by Authority/Application F</p> <p>What is your Authority/Application Reference?</p> <p>ala81</p> <p>Reference Act year Resource</p> <p>No cases found for this Authority ID</p>	<p>Search by Authority/Application Ref:</p> <p>What is your Authority/Application Reference?</p> <p>ALA81</p> <p>Case Details for ALA81</p> <p>Reference Act year Resource Main Appli</p> <p>ALA81 1992 Mineral Lisa J</p>	<p>Previously, if the user types "ala81" in a case tracking search they will not get any results, unless they typed in "ALA81".</p> <p>This has been fixed.</p>
10	Automatic retrieval of TAS data at the commencement of REN applications (as opposed to linking to TMS SOR).		
	<p>Renewal authority data was retrieved from migrated data in TMS, i.e. a snapshot in time so that if TAS was updated after migration the data displayed could be inaccurate.</p>	<p>Now the data is drawn directly from live TAS, so you get the latest updated version.</p>	<p>Users will always view current authority metadata.</p>
