Weekly incident summary

Note: While the majority of incidents are reported and recorded within a week of the event, some are notified outside this time period. The incidents in this report therefore have not necessarily occurred in a one week period. All newly recorded incidents, whatever the incident date, are reviewed by the Chief Inspector and senior staff each week and summarised in this report. For more comprehensive statistical data refer to our Annual Performance Measures Reports.

Reportable incidents total

<table>
<thead>
<tr>
<th>Level 1 incidents</th>
<th>Level 2 incidents</th>
<th>Level 3 incidents</th>
</tr>
</thead>
<tbody>
<tr>
<td>76</td>
<td>5</td>
<td>0</td>
</tr>
</tbody>
</table>

Note: Incidents are categorised as Level 1, 2 or 3 according to the seriousness of the incident, with 3 being the most serious.

Injuries | Fatalities
---------|------------
13        | 0          

Reportable incidents overview

Note: While all incidents are investigated, generally only level 2 and 3 incidents are summarised below.

<table>
<thead>
<tr>
<th>Level</th>

## Incident totals by Qtr

**Level 1 & Level 2**

<table>
<thead>
<tr>
<th>Level</th>
<th>Incident type</th>
<th>Summary</th>
<th>Comment to industry</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>Explosives</td>
<td>An investigation was conducted at a mine as a result of explosives found by an external agency at an ex-mine employee's house. The investigation at the mine did not identify any evidence in relation to this matter. No action was required at the mine.</td>
<td>Mines should regularly audit compliance against the mine explosives security plan. Particular focus to be directed at stock reconciliation, authorised access to explosives, detonators and explosives precursors. Metalliferous and extractives mines may refer to MEX-01: Explosive management system audit checklist for metalliferous and extractive mines and quarries. The SafeWork NSW Security plan guide is also a relevant reference.</td>
